

ISMS SECURITY POLICY **(Information Security Management System).**

THE MANAGEMENT OF **CIE AUTOMOTIVE** ESTABLISHES, WITHIN ITS CORPORATE STRATEGY, THE IMPROVEMENT IN THE QUALITY AND EFFICIENCY OF ITS MANAGEMENT AS ONE OF ITS STRATEGIC LINES, FOR WHICH IT IS ESSENTIAL TO CARRY OUT AN EFFECTIVE USE OF THE SYSTEMS OF INFORMATION. **THIS USE OF INFORMATION SYSTEMS AS A BASIS FOR INCREASING EFFICIENCY IN MANAGEMENT REPRESENTS A CHALLENGE** FOR CIE AUTOMOTIVE, MAINLY IN THE **SHARING** OF INFORMATION AND, OF COURSE, WITH REGARD TO THE **SECURITY** OF SAID INFORMATION.

THE CIE AUTOMOTIVE DIRECTORATE UNDERSTANDS **INFORMATION SECURITY AS AN INTEGRAL AND CONTINUOUS PROCESS OVER TIME**. SAID SECURITY MUST BE MADE UP OF ALL THE **TECHNICAL, HUMAN, MATERIAL AND ORGANIZATIONAL** ELEMENTS NECESSARY TO GUARANTEE AN ADEQUATE MANAGEMENT OF THE SAME, ARTICULATING SECURITY MEASURES TO REDUCE THE POSSIBILITY OF MATERIALIZING THREATS AND THAT THE SECURITY INCIDENTS THAT MAY OCCUR ARE DETECTED AND TREATED IN TIME AND DO NOT SERIOUSLY AFFECT THE INFORMATION THAT IS HANDLED OR THE SERVICES THAT ARE PROVIDED, ALLOWING THEIR RESTORATION.

THE "INFORMATION SECURITY POLICY" IS BASED ON CIE AUTOMOTIVE'S OWN NEEDS AND EXPECTATIONS IN RELATION TO THE **PRESERVATION OF CONFIDENTIALITY, INTEGRITY, AND AVAILABILITY OF THE INFORMATION HANDLED BY THE ORGANIZATION**.

THE OBJECTIVE IS TO ESTABLISH BASIC AND LASTING GUIDELINES FOR EFFECTIVE AND EFFICIENT PROTECTION, THROUGH A PREVENTIVE, DETECTIVE, REACTIVE AND DYNAMIC APPROACH TO THE USE OF CIE AUTOMOTIVE INFORMATION.

WE ARE GOING AHEAD TO THE EXCELLENCE
